Reasons for Allowance

EXAMINER'S AMENDMENT

1. Applicant's election without traverse of Group I, claims 1-3 in the reply filed on August 5, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims drawn to an invention non-elected without traverse. Accordingly, **claims 6-7 have been cancelled.**

3. The following is an examiner's statement of reasons for allowance:

The invention of claims 1-3 is drawn to a method of marking an object by forming a change in refractive index in said object by a multiple photo absorption with a laser beam then moving the laser beam in such a manner as to form a diffraction pattern capable of diffracting a visible light. Parthenopoylos et al teach the method of forming images in a three-dimensional manner in an object via a two-photon process but a diffraction grating is not formed capable of diffracting a visible light. The reading light generates, in Parthenopoylos et al, fluorescence forming a visible image. The formation

of a flat image via converging a laser beam is known in the art as well as shown by Hayashi (6,322,958). The instant invention of claims 1-3 is found allowable because the prior art fails to teach the formation of a diffraction pattern capable of diffracting visible light by moving the laser through the material to form the diffraction pattern.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
